SUMMARY

Full stack developer passionate about applying my data-driven creativity to deliver innovative solutions streamlined with organizational needs and success.My key languages and technologies are JavaScript, React, Redux and Rails. Additionally I possess excellent communication, problem-solving, and mentorship skills.

EXPERIENCE

MICROVERSE, *Remote*
Mentor (Volunteer) | June, 2022 – Present
- Mentoring 2 junior developers weekly through motivation and guidance.
- Proposing improvements to code organization to improve code quality and overall performance which has resulted in improved confidence and measurable performance in the program.

SHOP AND DELIVER LIMITED, Nairobi, Kenya
Customer Service Executive | August, 2019 – March, 2021
- Analyzed 200 client needs daily and curated the best products and services.
- Practiced effective listening, problem-solving, customer satisfaction and retention to at least 50 clients daily.

KENYA PIPELINE RETIREMENT AND BENEFIT SCHEME, Nairobi, Kenya
Actuarial Science Intern | October, 2017 – January, 2018
- Prepared effective and timely data-driven financial reports that helped improve clarity for the members and resulted in a 5% membership increase.
- Analyzed and prepared 5 tax statements weekly.

EDUCATION

MICROVERSE | May, 2022 – Present
Remote Full Stack Web Development Program, Full Time
- Practicing project-based learning with React, Redux, Rails, HTML, CSS and Vanilla JS through remote learning and pair programming where I've received a certificate for each.
- Developing 10 safe, secure and optimal front-end, backend and full-stack websites through maximum validation and TDD with excellent remarks from professional reviewers.

UNIVERSITY OF NAIROBI | September, 2014 – December, 2018
Degree, Actuarial Science
- Applied Statistical, Mathematical and Financial Insights in Real Life Risk Management issues daily.
- Pioneered a non-contributory post-retirement medical insurance which was awarded as best project and adopted by the department.
